

MSU ICER Cloud Computing Fellowship

Project Guide

Mahmoud Parvizi
parvizim@msu.edu

1. Project Description
 2. Expected Outcome
 3. Resource Estimate
 4. Task Overview
- + Questions

Project Proposal

1. Project Description
 - a. Background
 - b. Implementation

1. Project Description

Two Paragraphs (background and implementation)

1. Project Description

Quantifying a patient's risk for disease is important.

Hence, we aim to develop...

The implementation of such a tool requires...

2. Expected Outcome

One or two Sentences (structure and result)

2. Expected Outcome

We expect to realize a portfolio of on-demand, cloud-based software applications capable of...

3. Resource Estimate

One Table

Description	Rate	Duration	Subtotal
A8m v2 Virtual Machine	\$0.437/hour	120 hours	\$52.44
S20 Persistent Storage	\$21.76/month	3 months	\$65.28

4. Task Overview

One Table

Phase	Completion Date
Complete cloud workflow diagram	16 JAN 2023
Modify data analysis code	12 FEB 2023

+ Questions

List (development and/or management)

Questions

1. What if I realize I'm going over budget?
2. Can I keep my Azure resources after project completion?
